It is tremendous to note that the vast majority of parents believe their children are both happy and safe at Sarratt Church of England School. It is important that we all share both an expectation and determination to provide the very best educational experience for all children and again the survey strongly suggests parents believe that is the case.

Of the areas where there is less satisfaction, I can assure you that steps have and will continue to be taken to address these. Some of the areas I am sure relate to the past and at this stage progress may not seem to have been as effective. However, in all cases I am confident that you will be seeing increased improvement.

Within these past few weeks our new Head Teacher has been leading the school very effectively, as noted in your responses. With all parents and staff giving ongoing support, the Interim Executive Board believes this will ensure Sarratt School will meet all our aspirations for the children here.

Yours sincerely

Mike Simmonds
 (Interim Executive Board)
