

SARRATT CHURCH OF ENGLAND PRIMARY SCHOOL

Accessibility Plan

Laying the foundations for our children to be confident, respectful and to achieve their full potential.

Date of Review:	September 2024	
Next Review Date:	September 2026	
Reviewer:	Head of School	

Sarratt is an inclusive school which respects and values the diversity of our community.

We are committed to raising the attainment of all our pupils with due regard to their individual, social and personal circumstances.

We believe in actively promoting equality of opportunity in every aspect of the life of all pupils, parents and staff.

We are committed to challenging discrimination against those with disabilities, ensuring equality of access and preparing all pupils for life in a diverse society.

We respect and value the diversity which exists in the wider community. We are committed to challenging attitudes that promote discrimination against those with disabilities, ensuring respect for all and preparing all pupils for life in a culturally diverse society.

Our commitment to equality for those with disabilities will be demonstrated through:

- Fostering respect for all groups and individuals, within the context of Human Rights.
- Promoting positive non-discriminatory behaviour.
- Ensuring appropriate support for isolated individuals with disabilities within the school.
- Ensuring high expectations of all.
- Ensuring representation of a wider range of diversity within our curriculum and school community.
- Encouraging links with the wider community.
- Ensuring all legislation and guidance is adhered to.

We recognise that it is the responsibility of every member of our school community to ensure that this ethos is actively and consistently reflected in practice. We will systematically assess, evaluate and constantly review the impact of our school policies and practice on the life, attitudes and achievement of all groups and individuals amongst our pupils and staff.

suitable for all children Availability of written material in alternative formats. Pupils with visual impairments have access to the curriculum. Pupils with hearing impairments have access to the curriculum. Pupils with pair inthe curriculum. Pupils with hearing impairments have access to the curriculum. Pupils spaced near front of class, facing forward. Use of ICT (large icons on desktop etc.). Speech reinforced using facial expressions, signs or gestures. Short Term	Pupils with disabilities are	Buddy system in place as appropriate.	Specific children	All pupils included in all
	fully involved at playtimes.		allocated to pupils with	aspects of school life.
			disabilities.	

	Targets	Strategies	Outcomes	Goals Achieved
Short Term	Teachers and teaching assistants have the necessary training to teach and support pupils with disabilities.	Audit adult training needs to identify appropriate training courses in line with the needs of children. Use of outside agencies, specialist centres and support groups.	Staff trained and supported.	Curriculum accessible to all pupils.
	Children are fully integrated within the classroom.	Teaching assistants are used to support appropriate children. Curriculum and classroom environment adapted as necessary.	Needs of all children are fully met.	Curriculum accessible to all pupils.
	All members of the community have equal opportunities to access the school premises and relevant information.	School premises are inspected and reviewed to ensure accessibility for all. School provides information in range of alternative formats when necessary.	Needs of all members of the school community are fully met.	Physical accessibility of school increased and delivery of information is available to all.
Medium Term	Pupils with hearing impairments are suitably catered for.	N/A at present. If required, work with HCC specialists to provide suitable equipment when appropriate. Use of additional income.	HCC advice followed up and equipment obtained.	Physical accessibility of school increased.
	Investigate, if appropriate to the needs of children, appropriate colour schemes, signage and non-visual guides when refurbishing to benefit pupils with visual impairments.	Seek advice from LA sensory support service on appropriate colour and tactile non-visual signage.	Ensure classrooms are accessible to visually impaired children.	Physical accessibility of school increased.
On-going	Ensure all new building works conform to accessibility guidelines.	Guidance from PDA team at HCC.	Building completely accessible to all.	Physical accessibility of school maintained.
